

***Selfishness contradicts Sincerety***

Selfish people for me are most unwanted  
tittering in a self expressive mode  
posts into a fucking cyber sold

glooming high at social media sky  
never asking for the why  
decay of mentalities reply

where has brain connection gone  
you ask to some left overs run  
seemingly away  
the interconnectivity  
at least to those  
who only search for fun

brings us back to grounds from  
where our forefathers had come  
peace and unity ago  
selling future with no hon.

York.
